

Get your summer body ready!

Most people in the U.S. have little to no defense against COVID-19 this summer.

The first two doses of the vaccine are wearing off. And even if you got sick from COVID-19 last year, your natural protection is getting weaker too.

The new bivalent shot

- 🏖️ Protects you from more recent versions of COVID-19,
- 🏖️ Lowers your chances of long COVID, and
- 🏖️ Helps keep you out of the hospital if you do catch COVID-19.

Get your **FREE** bivalent shot to fight off COVID-19 this summer.

Older adults (65+) can now get a second bivalent shot at least 4 months after their first.

AmeriCares is a health-focused relief and development organization that responds to people affected by poverty or disaster with life-changing health programs, medicine, medical supplies and emergency aid.
